

A. M. D. G. WAH YAN COLLEGE, HONG KONG (College of Christ the King)

Annual School Report (2022-2023)

1. Our School

Wah Yan College was founded at 60 Hollywood Road, Hong Kong on 16th December 1919, by Mr. Tsui Yan Sau Peter. It became the first grant-in-aid secondary school in 1922. The college was transferred to the care of the Jesuit Fathers on 22nd December in 1932 with Rev. Fr. R.W. Gallagher, S.J. as the first Rector. In 1955, the college moved from Robinson Road to the present premises at 281 Queen's Road East. From then on, new buildings have been constructed to improve the facilities for the students. In 1987, Sir Gordon Wu Ying Sheung, a past student, donated the new annex, the Gordon Wu Hall to Wah Yan College, H.K. In 2005, Phases I & II of the School Improvement Project were completed in April, the building was named Francis H. B. Wong Teaching Building. In 2014, Phase III of the project was completed and the building was named Wu Jieh Yee Building. The school celebrated the centenary anniversary in the 2019-2020 academic year, which marked a significant milestone of the school.

In the long history of the provision of educational services in Hong Kong, Wah Yan College has observed the Ignatian Pedagogy and the guidance of the Society of Jesus to nurture our students.

2. Vision of Jesuit Education in the Chinese Province

"We offer a holistic, liberating and transforming Catholic education within a learning community for students and staff to become progressively competent, committed, compassionate, spiritual, and ethically discerning persons with a universal heart contributing to the welfare and happiness of all, in particular, the poor and the neglected."

3. | School Mission

In accordance with our Catholic belief in God's love and Chinese culture, we aim:

- 1. to be empathic role models for our students to grow into responsible and compassionate community members,
- 2. to inspire students to strive for excellence, and
- 3. to nurture caring leaders who are competent spiritually, morally and intellectually.

The underlying ethos of the school is based on the school motto "Men for and with others". This is in alignment with the Ignatian Pedagogical Paradigm. It is this paradigm that informs all learning at Wah Yan College and makes it an experience that reaches far beyond that which goes on inside the classroom.

4. School Motto

In Hoc Signo Vinces

In the sign of Christ, we shall conquer

Legend has it that the Roman emperor Constantine the Great, before his greatest battle, saw the sign of Christ in the sky. With the sign came the words 'in hoc signo vinces' - In this Sign, you shall conquer. Constantine did not know its meaning until Christ appeared in his dream and told him to adopt the sign of Christ. Constantine did so and won the day.

While not all Wahyanites would engage in a physical battle in their lives, we are obliged, nevertheless, to engage in a lifelong struggle to conquer oneself. As stated in the Wah Yan Spirit, we believe that 'for a man to conquer himself is the first and best of all victories.' In the name of Christ, we shall conquer.

5. The Five Categories of the Profile of the Jesuit Student at Graduation for the Chinese Province

- 1. Intellectually Competent
- 2. Loving as a Personal Orientation
- 3. Open to Life-long Growth
- 4. Religious and Moral
- 5. Committed to Acting on Justice

School Management

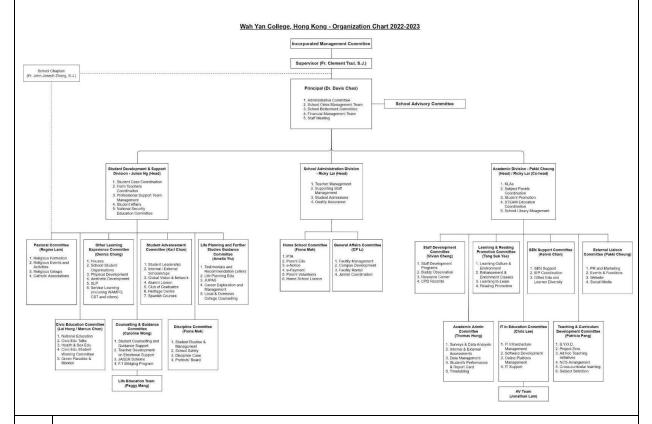

6.

Incorporated Management Committee (IMC) is the governing body of the school, which consists of representatives of Society of Jesus, our sponsoring body, the principal, teacher managers, parent managers, an alumni manager and an executive secretary. The IMC met 4 times in 2022-23. In addition, a retreat with IMC members of Wah Yan College, Kowloon was held in June 2023.

| Principal (Ex-officio Manager) | Dr. Davis Chan |

The chart below shows the administrative structure of the school in 2022-2023.

7. Campus and Facilities

Our College is located at the top of Mount Parish in Wanchai. The campus covers an area of over 220,000 sq. ft., in the middle of a lavish green environment with plenty of wildlife around. It is made up of a 3-storey spacious classroom wing and a laboratory wing built in 1955, together with more space and facilities gradually added over the years in the Gordon Wu Hall (1987), the Francis H. B. Wong Teaching Building (2004) and the Wu Jieh Yee Building (2014). We are also proud to have a beautifully-designed chapel and a lot of greenery at the center of the campus, providing a unique and cozy learning environment for our students.

School facilities include three playgrounds, a gymnasium, a library, two computer rooms, four science laboratories, a Star Studio Production Centre, a music floor, a Visual Arts Centre, an Integrated Humanities Centre, a prayer room, six interactive learning rooms, a student activity centre, a Geography room and a canteen. The new school hall can seat about 900 persons and is large enough to accommodate all the staff members and students. Designed in a way that can be converted to a standard basketball court with spectator stands, the new hall is an excellent multi-purpose venue for a wide variety of sports, artistic, social as well as academic functions.

With a view to enhancing our classroom facilities, all classrooms have been equipped with interactive whiteboards since August 2022. These interactive whiteboards are smart screens that can connect to the Internet, play videos, show presentations and even connect to students' devices in our classrooms.

The school received special approval from the EDB REO to commence the alternation work of the new Medical Room, Public Address Room, and Vice-Principal Office from June to August 2023. The replacement of the trophy storage cabinets also began at the same time, and the relocation cost of the existing PA system was quoted and relocated accordingly. Renovation works to replace old electrical wires, conduits, sockets, lighting fixtures, and fans in the 1/F laboratories were completed by the end of July 2023.

The Staff Room decoration works, including the replacement of carpets, wall-mounted bookshelves, wooden cabinets in the pantry area, and teachers' desk cabinets, were completed on 19 August 2023. These renovations demonstrate the school's commitment to providing a comfortable and conducive learning environment for its staff and students.

The school is also working on renewing the main entrance area, including the honor roll signs, and relocating the guards' reception office to the side in the coming months, with the aim of giving the school a new and refreshed look.

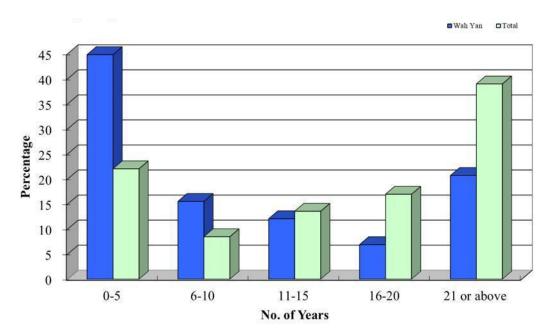

Regarding the tuckshop, Red Cross room, PE room, and Scout room area, the school is exploring the possibility of creating a thematic STEAM student hub where students can have lunch, discussions, forums, and technology explorations in a leisurely atmosphere, while keeping the PE room and adding a decent changing room for students. This initiative demonstrates the school's commitment to providing a dynamic and engaging learning environment that addresses students' needs.

8. Teaching Staff

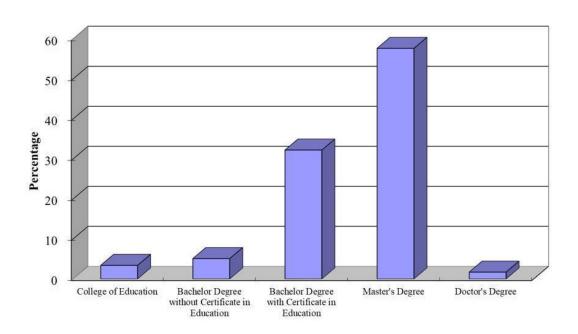

Our teaching staff consisted of 56 teachers, 3 laboratory technicians, 5 teacher assistants, 1 music coordinator, 1 pastoral assistant, 3 IT staff and 2 student counselors. We believe teachers are key to

nurturing promising students. The information below shows the profile of our teaching team.

Teachers' experience

Highest Qualification

9. Students

Students are what Wah Yan College exists for. There were a total of 698 students at the start of the academic year 2022-2023. The breakdown of classes and number of students in each form is as follows:

Class Arrangement

| Level | F.1 | F.2 | F.3 | F.4 | F.5 | F.6 | Total |
|-----------|-----|-----|-----|-----|-----|-----|-------|
| 2022-2023 | 4 | 4 | 4 | 4 | 4 | 4* | 24 |

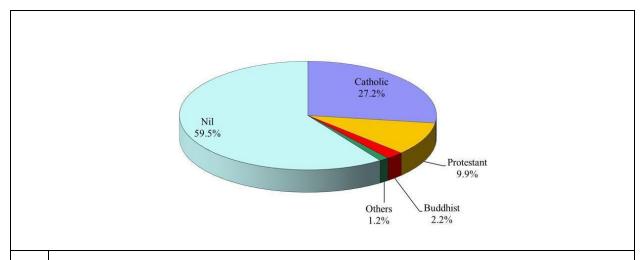

^{*4} classes based on government funding but split into F.5 classes in actual operation.

Number of students (At the end of Academic Year)

| Level | F.1 | F.2 | F.3 | F.4 | F.5 | F.6 | Total |
|-----------|-----|-----|-----|-----|-----|-----|-------|
| 2022-2023 | 139 | 125 | 107 | 102 | 97 | 92 | 662 |

In 2022-2023, there were altogether 197 active learning days arranged for students. As the F.6 students had to take their public examinations during the second term, they had 111 active learning days.

While our school is a Roman Catholic school with the vision of providing holistic Catholic education to our students, we respect students' freedom of worship. Overseen by the Chaplain, the Pastoral Committee is in charge of Catholic activities in the school. In 2022-2023, 27.2% of Wah Yan students were Catholic.

10. Management and Organization

The ongoing COVID-19 pandemic presented challenges to our society, and our school was no exception as we began the 2022/23 school year. With the blessings of God, the precautionary measures were gradually eased during the second term. We were pleased to welcome our students back to campus, allowing for dynamic interactions between teachers and students and fostering a positive learning environment. Moreover, enabling students to engage in various extracurricular events and community outreach programs provided valuable experiences they had missed out on due to the unprecedented disruptions of recent years. These experiences should be an integral part of normal Wah Yan school life for our young gentlemen to learn from and reflect upon, as they have always been important elements of Jesuit Education. It was also gratifying to witness our students being given opportunities to showcase their talents and receive recognition for their accomplishments, while demonstrating the Wah Yan spirit of conquering their weaknesses - In Hoc Signo Vinces! However, in our efforts to resume as many activities as possible within a condensed time frame, both the school administration and students experienced a sense of being overwhelmed, particularly in the post-exam period. It is important that we learn from this experience and reflect on how we can better manage such situations in the future.

Regarding school administration, the role of our vice principals and middle management in the leadership of the school has been strengthened. We have successfully recruited a third vice principal and reorganized our administrative structure into three divisions: the Academic Division, the Student Development and Support Division, and the School Administration Division. Each division is led by one of the three vice principals under the guidance of the Principal.

To enhance our academic development and support for students' learning, we upgraded the Academic Admin Team, the Teaching and Curriculum Development Team, and the Learning & Reading Promotion Team in the Academic Division to committees. The General Affairs Team in the School Administration Division has also been transformed into a committee to enhance the operation of facilities and coordinate the development of our campus based on the comprehensive Spatial Usage Review conducted last school year. Thanks to the generous sponsorship from the Wah Yan One Family Foundation, interactive panels were installed in all classrooms. Furthermore, after years of hard work

and preparation, the Wah Yan Heritage Centre had its soft opening on 17th December 2022. Ongoing projects include the alteration of the new Medical Room, the Public Address Room, and the new Vice-Principal Office, as well as the renovation of the trophy cabinet area and the renewal of the main entrance area. Looking ahead, we are exploring the possibility of establishing a thematic STEAM student hub. This hub would provide a conducive environment for students to have lunch, engage in discussions, participate in forums, and explore technology in a relaxed atmosphere. Simultaneously, we remain committed to maintaining the existing PE room while adding a suitable changing room in the current tuckshop, PE room, and Scout room area. Our dedication to facility upgrades underscores our commitment to enhancing the quality of education we provide.

With the EDB's audit inspection in January 2022, we have identified areas that require attention and alignment with the guidelines set by the EDB. The college has followed the recommendations of the EDB audit team and made efforts to align our procedures with the related guidelines. The IMC also established an Audit Report Task Force, chaired by the supervisor, Fr. Clement Tsui, with members including the principal, Dr. Davis Chan, our auditor, Mr. Edmond Leung, our past IMC member, Mr. Sam Yu, and our current IMC member, Fr. Alan Wong, to review and further enhance our system. The Task Force held meetings with stakeholders and provided clarifications and recommendations to the IMC on areas such as Collection of Payment, Learning Activities for Students, Exceptions on Procurement Activities, Donations and Fundraising Activities, and Teacher Attendance. These recommendations were accepted by our IMC, and the school has been implementing them.

In line with our direction to transition our administrative work to electronic and online platforms, in addition to eNotice and ePayment, we started an internal online venue booking system called eBooking on eClass this school year. This system enables our colleagues to book venues for activities conveniently, regardless of location and time. Moreover, the school is in the process of establishing a sustainable and systematic filing and documentation system on the cloud. This initiative aims to facilitate easy retrieval of relevant documents by the appropriate personnel in the future.

To further enhance consistency and transparency in the school's policies, the three school divisions are consolidating their policies, guidelines, and procedures and creating handbooks for School Administration, Academic Affairs, and Student Development and Support. We will continue revising our management and organization to meet the needs of an ever-changing society and improve the school, providing the best education to our young gentlemen for the greater glory of God.

Staff Development

The school had a productive year in terms of staff development in 2022-2023. A total of 10 school-based staff development programs, totaling 33.5 hours, were organized.

The highlight of this year's programs was the joint school staff development day attended by teachers from both Wah Yans. They gathered to share how to be more compassionate and caring towards students and themselves. Additionally, parallel wellness sessions were conducted.

During one of the staff development days, the school Project Zero Team shared their insights on shifting of authority in the classroom. A government seconded teacher introduced the use of Microsoft Teams/OneNote to create ebooks. Furthermore, teachers discussed and reflected on their journey of promoting self-directed learning through the BYOD initiative.

A thought-provoking talk titled "Do we call ourselves professionals? Why, What and How?" inspired teachers to reflect on their professional roles.

To support the growth of new teachers to become better Ignatian Educators, not only did the school provide orientation programs at the beginning of the school year, the Staff Development Committee also continued organizing a two-year companionship program. This program focused on sharing and discussing the values of Jesuit Education.

11. Learning and Teaching

Students' Learning

The aim of Wah Yan's curriculum is to enable students to take their place as balanced young adults in the modern world. We seek:

- to develop fully in them skills and knowledge and to provide them with the enrichment which will be needed for life in its widest sense.
- to inculcate students with enthusiasm, honesty and open-mindedness, respect and consideration for others.
- to provide an environment in which students, staff and the Jesuit Fathers can work purposefully and live together harmoniously; and in which each student will find areas of happiness and have the fullest chance to develop the talents he possesses.

English is the major medium of instruction in the College. An English-rich environment is provided. Meanwhile, our students are encouraged to know and appreciate their own culture, and to develop the ability to express themselves both in Chinese and English precisely, clearly and eloquently. A Jin Yong Week was organized for students to learn more about the masterpieces of the legendary author with a series of activities such as booths, a voice-dubbing workshop and a book exhibition. We offered school-based Spanish class and encouraged students to take off-campus courses of other languages as well.

School life resumed to the norm in this academic year. More experiential learning opportunities were provided for students, such as visits and off-campus competitions. Reading was also further promoted. Two book exhibitions were organized with keen responses. A wide range of items were purchased to enrich the library collection across disciplines. Some flexible afternoon sessions were arranged to expand students' scope of knowledge, such as water resource management, solar physics, and fintech.

Curriculum for Forms 1-3

Our curriculum aims at establishing a solid foundation for our junior secondary students. Language Arts in English and Modern Chinese Literature continued to invigorate our English and Chinese Language curriculum. Putonghua was provided to help students to speak and listen to the national dialect.

IDEEA was extended from F1 to F2 to strengthen STEAM of our curriculum. Project-learning activities across different subject panels were conducted too. The Reading Award Scheme launched by the School library successfully enhanced the reading atmosphere of our school, especially for the junior form students. Reading across the Curriculum was promoted through assignments. Collaborative learning and explorative learning were also promoted in group work or mini projects.

There was no streaming in Forms 1, 2 and 3. Students with different academic abilities were allotted evenly to different classes. F.2 and F.3 students who had outstanding performance in English. as well as F.1 and F.2 students who had outstanding performance in Mathematics were allocated to enrichment classes for small class teaching.

All students in Forms 1 and 2 studied English, Chinese, Mathematics, Chinese History, History, Geography, Computer Literacy, IDEEA, Integrated Science, Music, Physical Education, Putonghua, Visual Arts, Life & Society, Life Education/Religious Formation and Ignatian Values Education.

All students in Form 3 studied English, Chinese, Mathematics, Chinese History, History, Geography, Computer Literacy, Physics, Chemistry, Biology, Music, Physical Education, Putonghua, Visual Arts, Life & Society, Life Education/Religious Formation and Ignatian Values Education.

Curriculum for Forms 4-6

To prepare our students for the Hong Kong Diploma of Secondary Education Examinations and to promote an all-round learning experience in Wah Yan, all senior form students needed to study English, Chinese, Mathematics, Ignatian Values Education, Liberal Studies/ Citizenship and Social Development, Physical Education, and Aesthetic Education. Besides, all Form 4 students studied 3 elective subjects. Elective subjects offered in 2022-2023 included Business, Accounting and Financial Studies, Biology, Chemistry, Chinese History, Geography, History, Information and Communication Technology, Music and Physics. Students might also take Spanish or other foreign languages and sit for the corresponding public examinations. Form 5 students were allowed to study Applied Learning subjects offered by other institutions. The school also assisted students in enrolling in overseas examinations, such as IAL and IGCSE.

Innovation in Education

The BYOD (Bring Your Own Device) policy was implemented in F1 and F2 this year. The school supported the implementation by teaching students the fundamental computer skills applicable across multiple subjects. This enabled students to utilize their own devices for learning purposes while also

acquiring essential computer skills beneficial for their future studies and careers. The staff development day program included discussions on shifting authority in the classroom, utilizing Microsoft OneNote to create e-books and promoting self-directed learning with BYOD, in response to teachers' needs.

The Project Zero, initiated by Harvard Graduate School of Education, entered its final year. During the innovation phase, team members extensively incorporated PZ thinking routines such as redirecting authority, pedagogy of play, part purposes and complexity, "I used to think... now I think," and the narrative approach in their lessons. Teachers were able to enhance students' learning motivation and foster a sense of ownership in their own learning.

IT in Education

The ITEC committee has consistently improved the IT infrastructure to facilitate IT in Education. We established a new WiFi system at the school, incorporating Cisco Meraki WiFi 6 technology. This upgrade resulted in a significant improvement in both network speed and stability, providing a more efficient and reliable WiFi experience for all users.

Moreover, the backbone of the network was also upgraded to a fiber network, which further enhanced the overall performance and reliability of the network. This upgrade has been a significant investment and will provide a more robust and future-proofed network infrastructure for the school.

The classroom projection system was upgraded, with the installation of an 86" interactive panel. This new system replaced the previous projection system and offers several significant advantages.

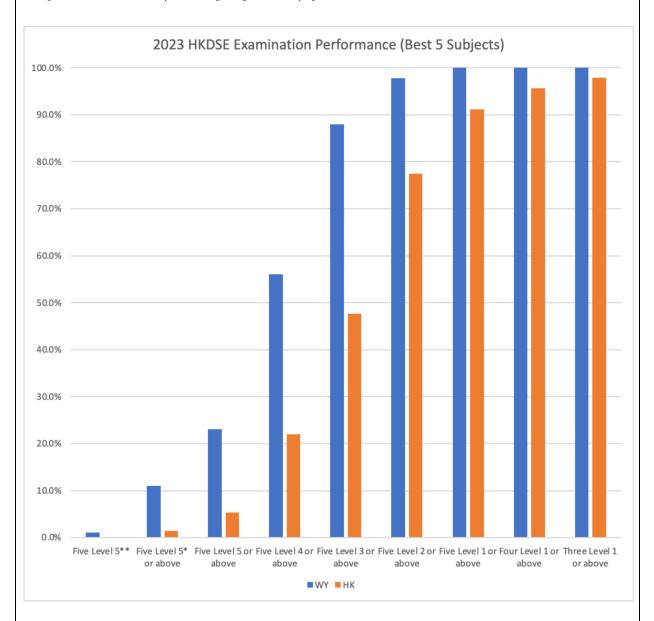

Special Education Needs Support

The SEN Support Committee interviewed all SEN students individually throughout the first school term to identify their needs and concerns. They then received professional support from various parties, including social workers, student counsellors, educational psychologists, and speech therapists. The Committee also helped SEN students to apply for appropriate adjustments both in internal examinations and HKDSE examination. To echo the Jesuit motto of 'men for and with others', our alumni offered tutorial classes for SEN students to enhance their learning motivation before and during the final examination. Regular meetings were conducted each cycle to review special cases. Tier 3 students were well taken care of with strategies concluded from IEP meetings for each of them.

Academic Performance

Due to a significant number of students pursuing overseas studies in recent years, the class of 2023 had a historically low number of students, with only 89 students sitting for the HKDSE examination. Despite the challenges posed by COVID-19 and the unexpected experiences they faced during their senior secondary school life, the students demonstrated their utmost dedication in preparing for the

HKDSE examination and achieved satisfactory overall results. They performed exceptionally well compared to the territory's average significantly (please refer to the chart below).

We are glad to see notable improvements in subjects such as Chinese History, Economics, and Physics. Furthermore, subjects like History and Geography showcased outstanding results. All of our Form 6 students achieved Level 3 or above in English Language, and 98% attained Level 2 or above in Math and LS. It is worth mentioning that one student achieved five Level 5** (including M2), and ten students excelled by obtaining five or more Level 5* or above.

However, there was a decline in the Chinese Language Level 3 rate, which we are committed to putting efforts into enhancing in the next school year. This decline had an impact on the overall results and affected the JUPAS offer rate, which stood at approximately 75% during the first round. Among the

offers received, 21 (32%) were from HKU, 16 (24%) from CUHK and 9 (14%) from UST. Our students enrolled in a diverse range of programs, encompassing fields such as Medicine, Dental Surgery, Computing and AI, Nursing, Law, Global Business, Quantitative Finance, Public Policy and Politics, Business, Global China Studies, Arts and Science, and more.

Furthermore, approximately 11% of our graduates have chosen to pursue their studies overseas, including prestigious universities like Imperial College London, University College London, and Durham University in the UK, University of Waterloo in Canada, among others.

Aside from the result, it was also the passion for learning and the drive for self breakthroughs that we witnessed in our F6 gentlemen throughout the year. These are indispensable elements that will open a lot of doors for their future endeavors. While more challenges are awaiting them, our graduates will achieve a lot more with the Wah Yan spirit deep rooted in them.

12. Student Support and Development

Spiritual Development

In order to foster the spiritual growth of our students, particularly in cultivating a reflective habit, our Pastoral Committee supported and trained both students and teachers in conducting Examen during the daily Examen session after homeroom and in various events. The rise in Examen frequency has significantly contributed to students becoming more open and prepared to engage in personal Examen even outside of the campus environment.

In this school year, Fr. John Wotherspoon was invited to come and share his missionary life in Hong Kong in celebration of the Feast Day of St. Francis Xavier. His perseverance and passion in serving the poor and the neglected in Hong Kong is truly inspirational to our students. A series of Lent activities were held as well, including the way of cross once a week for each form in the school chapel, famine lunch and other joint-school service projects, to enhance students' understanding and experience of the meaning of Lent. Other annual pastoral events were also held, such as the Mass of Convocation, Midnight Mass, and the Thanksgiving Mass.

With the end of the severe Covid-19 condition, retreats and Magis programs were resumed for our senior form students. These programs provided valuable experiences to our students in reflecting and discerning their choices in life to become "Magis - more, better, greater".

Moral & Civic Education (including National Security & National Education)

During the 2022-23 school year, the Civic Education Committee successfully secured the QEF funding (我的行動承諾加強版撥款計畫) to enhance National Education and media literacy. Students actively participated in National Education events and competitions, such as the "2022 National Day Online Quiz Competition" and the "Basic Law Quiz Competition 2022-23, 第二十二屆《基本法》及一國兩制網

上問答比賽 by 中山大學法律系香港同學會," which deepened their understanding of national affairs and legal frameworks. Their engagement extended to National Education activities, including the MV production of "少年中國說," showcasing their talents and promotion of national values, with a notable achievement of a student securing the 2nd runner-up position in the "國家安全教育網上學習平台: 『拍拍樂』網上挑戰賽," highlighting the effectiveness of the programs.

The NSE Committee prioritized safety and unity by reviewing and updating emergency protocols and enhancing student involvement in national flag raising ceremonies. They also facilitated various subject panels to integrate NSE curriculum frameworks into various subjects, equipping students with knowledge and skills related to national security and fostering a deeper understanding of civic responsibility and global challenges.

To further promote National Security education, a collaborative Parents' Day event was organized on February 11, 2023, by the Civic Education Committee and the Parent-Teacher Association. The event featured an exhibition on Basic Law and National Security Law, along with a Q&A competition for parents and students from F1 to F5, encouraging dialogue and reinforcing our commitment to civic education and community engagement.

In summary, the Civic Education Committee and the NSE Committee's initiatives during the school year encompassed securing funding, student participation in National Education events and competitions, integration of NSE curriculum frameworks, and organizing a Parents' Day event. These efforts aimed to foster a safe and nurturing environment that instills national pride, civic responsibility, and global awareness among students.

Other Learning Experiences

This year, the OLE Committee aimed to provide programs that helped students appreciate their roles in their communities, strengthen their sense of responsibility, and foster compassion and care for others. To achieve these goals, several initiatives were undertaken.

The New Year Art Tram Project was conducted successfully in December 2022, with over 50 students transforming the tram body into a large mobile drawing canvas to create and display their collective artwork. The project aimed to provide students with the opportunity to appreciate their roles in their communities and strengthen their sense of responsibility to the society. In January 2023, around 30 teachers and students visited the Tram depot and took part in a charter tour to convey the message of love and care to the public during the New Year period.

To motivate students to take part actively in community services, members of the WAMFO team organized form-based service learning activities in junior forms, including a coastline clean up activity in Sandy Bay and instant soup packet donations to raise students' awareness of caring for the environment and the elderly. Additionally, the two joint school service programs were held successfully. The first program was a collaboration with St. Paul Secondary School, which involved visiting street

sleepers and providing them with much-needed support. The second program, which aimed at serving abandoned or abused animals, was in partnership with Good Hope School, with assistance from House of Joy and Mercy. These joint school service programs demonstrate our school's dedication to promoting social responsibility and contributing to the betterment of society. In addition, the development of the "WAMFO App" nurtured students' habit in keeping records and reflecting on their experiences effectively and efficiently.

The Joint School Student Fun Fair was held successfully with the support of St. Paul's Secondary School, Good Hope School, and Raimondi College. Various game booths and workshops were arranged for students and their family members to share their joy through the activity. The Local School Exchange Program and "Wah Yan Carnival" were also held successfully with Maryknoll Convent School (MCS).

In sports, our students achieved outstanding results in inter-school competitions, including 4th place in the Boys (Division 1) Overall in Hong Kong in Inter-School Athletics, overall champion in Inter-school Orienteering competition, and outstanding achievement in inter-school Badminton competitions.

In the field of aesthetic development, the long-awaited Matteo Ricci Student Concert was held successfully in June 2023. Besides, Wind Band, A cappella Team, and School Choir also made outstanding achievements this academic year, together with various awards in art areas.

Our English debating team also achieved an outstanding and glorious achievement in the inter-school debate competitions, taking home various awards.

To help students develop a reflective habit, student leaders were required to submit activity reports to appreciate what they did well, reflect on their weaknesses, and suggest improvements for future planning. Overall, these initiatives aimed to enhance students' sense of responsibility, compassion, and care towards their communities, preparing them to become compassionate and caring individuals "for and with others."

Life Planning and Further Studies Guidance

Throughout the academic year, we enhanced our life planning initiatives for junior students. Our goal was to foster their reflective learning abilities and promote self-understanding regarding their interests, aspirations, and capabilities. This was achieved through a wide array of classroom activities and discussions conducted during Life Planning programmes. The committee also prioritized equipping students with up-to-date information on career opportunities and study choices to empower them in making well-informed decisions at various stages of their lives. As for senior students, the focus was providing personalized guidance and support for university admissions, course selection, and future career planning. Additionally, diverse career exploration programs, as well as planning and management activities such as interview and CV writing workshops, in-school talks, seminars, careers day, and university visits were organised. Furthermore, we worked closely with the Student

Advancement Committee to implement Project Pharos with the aim of providing comprehensive support and guidance for overseas university applications, helping students unleash their potential. The committee also collaborated with the Parent-Teacher Association to organize a series of overseas education seminars for parents, who are important stakeholders in life planning education.

Discipline and Guidance

The cooperation between the Discipline Committee and the Counseling and Guidance Committee was close. We did not see giving consequences to misbehavior as an end of education, instead, personal and long-term guidance is pivotal to a young student's character building and guides students on the right track. Besides the close cooperation and follow up actions, we also paid attention to charter formation of our students. Thematic seminars and talks related to common concerns in the campus were arranged for all students. Besides, we reviewed the reporting protocols to enhance the communication among all parties in different kinds of situations. More coordination among the formation of IVE, RF, LE, FTP, Life Planning and Sex Education was done for the mental and spiritual development of the students. Besides, the enhancement of the role of form teachers provided first hand support to students in need. Also, we supported students with special education needs in all aspects to help them grow. The Prefects' Board and JASER Scheme were implemented as usual in support of the students' school lives in all aspects.

provided students with presentation, report projects were upcoming academic year. writing skills, etc. in conducted in the opportunities to apply and iunior forms. different classes develop essential skills To enhance the effectiveness of project such as research, data implementation, more analysis, organization, presentation, and report consultation with panel writing across different chairs will be arranged to subjects. The strategy's tap into valuable input and effectiveness was evident insights. This collaborative in the successful approach will enable the completion of these projects to evolve and better meet the needs of projects, showcasing the acquisition of valuable the students, fostering interdisciplinary skills by their growth in the students. project-based learning and interdisciplinary engagement. It can be evaluated that the strategy to incorporate project learning skills in the junior forms has achieved success. Junior form students completed a total of 3 cross-disciplinary projects, showcasing their ability to apply research, data analysis, organization, presentation, and report writing skills. These projects encompassed a range of subjects, including F1 Music/Eng, F3 Bio/Eng, and F3 Hist/Geog/L&S. The successful completion of these projects demonstrated the effectiveness of the strategy in equipping students with valuable interdisciplinary skills and fostering their holistic development.

| 1.1.3 |
|----------------------|
| To extend IDEEA |
| (Innovation, Design |
| Engineering, |
| Entrepreneurship, |
| Art/Algorithm) as ar |
| independent subject |
| in F.2 |
| to facilitate the |
| application of PBL |
| and SDL |
| |

- IDEEA was extended smoothly in F.2 as an independent subject.
- A robotics module and a video production module were incorporated into the F.2 curriculum to provide students with practical avenues to apply their Problem-Based Learning (PBL) and Self-Directed Learning (SDL) skills.

The strategy of extending IDEEA in F.2 has proven to be a resounding success. By teachers' observation, not only did this approach enhance students' understanding of IDEEA concepts, but it also cultivated their creativity, critical thinking, and collaboration abilities. The integration of PBL and SDL in these modules empowered students to actively engage in hands-on projects, fostering a deeper understanding of the subject matter and preparing them for real-world challenges.

Following the successful implementation of IDEEA modules in F1 and F2, the curriculum will progress to F3 in the upcoming school year. Students will continue their journey through all four IDEEA modules. This progressive integration of IDEEA subjects across multiple forms ensures a comprehensive and cumulative learning experience for students, equipping them with essential skills in innovation, design, engineering, entrepreneurship, and art/algorithm.

Target:

1.2 Students become reflective learners

1.2.1 To promote the practice of daily Examen and launch daily Examen after Homeroom time on school days

- Daily Examen after homeroom time was successfully introduced on each school day.
- Form teachers were invited to facilitate the practice, guiding students in reflective exercises and self-evaluation.

The introduction of daily
Examen has proven to be a
remarkable success. With
the concerted efforts of
form teachers, students
were guided in reflective
exercises and
self-evaluation. This daily
ritual promoted
mindfulness, personal
growth, and a positive
school atmosphere,
fostering a deeper sense of
self-awareness and
well-being among

Based on the success of daily Examen, the practice will continue to be conducted by form teachers after homeroom sessions. This ongoing implementation ensures that students will consistently benefit from the reflective exercises and self-evaluation facilitated by their form teachers, promoting personal growth and self-awareness.

| Target: 2.1 Teachers and s | tudents become compassio | nate and caring persons "for an | d with others" |
| 2.1.1 To launch the revised self-directed learning package on "Safeguarding Students Against Abuse" for teachers | • The package and accompanying quiz on "Safeguarding Students Against Abuse" for teachers were timely revised and launched. | The revised package was proven to be effective tools in promoting teachers' awareness of the policy. These resources successfully engaged and informed teachers so that they understood the policy's objectives and guidelines. The implementation procedure was successfully revised. 94% of teaching staff completed the quiz and/or the package, indicating a high level of engagement and awareness among the staff regarding the revised procedure. | To ensure teachers remain informed about the latest development of the issue, it is crucial to continuously update the related materials. By regularly refreshing and providing up-to-date resources, teachers can stay aware of any changes or advancements in policies, procedures, and practices, enabling them to adapt and implement them effectively. |
| 2.1.2 To provide individual support and academic guidance after Mid-term examination to low achievers, | • Counselors, social workers and counseling teachers worked closely to provide support for students with low learning motivation. 2.1.4 To organize sharing and teacher workshop on topics including fostering a positive environment for students with diverse needs and becoming a more compassionate companion

• A sharing session and a teacher workshop were organized, focusing on fostering a positive environment for students with diverse needs and promoting compassion.

The impact of the sharing session and teacher workshop was evident.

Over 80% of participants reported a greater understanding of the needs of students with special educational needs (SEN) and an increased repertoire of ideas to support and accompany them effectively.

The participants' responses were highly encouraging, as they were impressed by the speakers' genuine and practical sharing of relevant advice. Teachers demonstrated a strong awareness of their compassion towards students' needs.

Teachers will be equipped with skills to provide concrete support and foster a growth mindset, creating an environment that promotes effective support and nurtures students' development.

2.1.5
To foster
students' sense
of caring and
brotherhood
through JASER
scheme

• The JASERs program was successfully launched to support F1 freshmen and develop a stronger sense of brotherhood among the students.

The success of the JASERs program was evident from the beginning of the academic year. Although students' initial closeness waned over time, they persevered and fostered a strong sense of brotherhood.

brotherhood.

F1 commended the JASERs for their achievements, and the JASERs reciprocated by providing valuable support to F1 in both academic and

Over 60% of F1 students, along with all the JASERs, recognized the JASER Scheme as a powerful catalyst in fostering a stronger sense of brotherhood among the students.

interpersonal matters.

Further attention can be given to providing personalized follow-up for the JASERs, focusing on addressing their specific needs and supporting their personal growth and development.

Target:

2.2 Students become more empathic and respectful towards different values

2.2.1
To further integrate elements of the "Unity in Plurality" program into the teaching curriculum of Life Education, Ignatian Values Education, and

• F3 Life Education and Religious
Formation played a crucial role in shaping students' understanding of effective communication.
They were taught the importance of silence as a means of reflection and contemplation, enabling them to

An impressive majority of students agreed that their listening skills had significantly improved. Moreover, they actively demonstrated empathy and respect towards diverse values in their daily interactions with peers. This positive shift in attitude fostered a more inclusive and harmonious environment, promoting understanding and

The importance of silence and listening will be kept in the curriculum in F3 life education and religious formation, while more concepts and skills in non-violent communication will be included in Life Education lessons.

The theme of empathy will be continually taught in the F5 IVE curriculum.

| Religious | better listen and | acceptance among | |
|--|---|---|--|

| 2.2.2 To organize formation programs for different forms in Flexible Periods to help students become more empathic and respectful towards different values | • A series of four thematic talks was arranged for all students, addressing diverse subjects and providing comprehensive content. These talks aimed to engage and educate students on various relevant topics, fostering a well-rounded and informed learning experience. | Over 70% of the students thought they were more empathic and respectful towards different values after the programs. | The thematic talks for various forms will be held again in the coming school year. Different topics are introduced to fit students' needs. |

| Target: 2.3 Students appred | ciate their roles and values | and are responsible for their co | mmunities and the world |
|---|--|--|--|
| 2.3.1 To bring in new modules in the leadership training programs to teach our student leaders to appreciate their roles and values as leaders at school | • Howatson Scheme was created to provide training and exposure for 21 potential leaders in F.4. In July 2023, a leadership training camp in Singapore was held for 30 F.4 student leaders before they assumed top leadership roles. | The sense of responsibility of student leaders is enhanced in general. Over 70% of the participants agree that they appreciate their leadership roles and values after the program. | More than 90% of the participants in the Howatson Scheme felt that the programme was helpful towards their future roles in leadership. For the next cohort, more elements of service learning will be explored. |
| 2.3.2 To bring in service activities in joint school programs so that our young leaders can shoulder their responsibility for the communities and the world | • Two Joint school service programs were held successfully this year. The first program was a collaboration with St. Paul Secondary School, which involved visiting street sleepers and providing them with much-needed support. The second program was in partnership with Good Hope School, with assistance from House of Joy and Mercy, and aimed at serving abandoned or abused animals. | Over 70% of the participants agree that the activities can teach them to shoulder their responsibility for the communities and the world. The evaluation showed that the sense of responsibility among student leaders, in general, was enhanced. Not only did the programs have a positive impact on the participants, they also benefited student leaders in terms of fostering their commitment to community service. | Building on the success of these programs, it is suggested additional service initiatives that align with the students' interests and concerns be explored. This will allow a more diverse range of community engagement opportunities and a platform for students to address different social issues. |
| 2.3.3 To launch a new WAMFO App and to motivate our | The development of the WAMFO App was successfully completed as of May 23. Major Concern 3: Developing the school into a committed learning community with a growth mindset

| Strategies/Tasks Achievements Evaluation & Reflection Feedback & Follow-up | Strategies/Tasks | Achievements | Evaluation & Reflection | Feedback & Follow-up |
|--|------------------|--------------|-------------------------|----------------------|
|--|------------------|--------------|-------------------------|----------------------|

Target:

3.1 Students possess an inner drive for excellence and are committed to being lifelong learners

- 3.1.1
 To organize sharings, talks, and life planning programs to inspire and help students explore their aspirations and learn the strategies to set goals through life planning programs
- Throughout the academic year, a diverse range of life planning programs and activities were organized, including university admission talks, seminars, campus visits, alumni sharings, and interview and skills workshops. These initiatives aimed to equip students with essential life planning skills and assist them in discovering their aspirations at different stages of life.
- Over 70% of students developed a better understanding towards goal setting at various stages of life, making informed decisions and the importance of acquiring employability skills.
- Based on the positive feedback received, it has been decided that these effective strategies for life planning programs and activities will continue. The continuation of these initiatives reflects the school's commitment to providing ongoing support to students in developing their life planning skills and pursuing their aspirations.

To provide support and guidance on college and scholarship applications

3.1.2

- In the first term, two sessions were specifically held to provide guidance on college and scholarship applications and overseas institutes.
- Individual counseling was given to students.
- Students gained valuable information on college and scholarship applications and overseas institutes, which supported them in navigating the application process effectively.
- In order to provide enhanced support, individualized counseling will be offered to students at an earlier stage, specifically in F3. This proactive approach aims to address students' needs and concerns earlier. ensuring that they receive personalized guidance and assistance in their academic and personal development.

| 3.1.3 | • To aid our junior | Over 70% of the | Based on the positive |
|--|--|---|---|
| To organize different SDL talks for junior form students and Magis in learning programs for senior form students in order to boost their learning motivation and reinforce their learning skills | form students in their academic journey, we arranged two lectures during the flexible periods. The lectures focused on essential skills such as time management, note-taking, and study planning. These sessions aimed to equip students with effective study strategies and promote their | students agreed that the talk could help them consolidate their learning and plan their study pathways in the future. | reception and feedback it has been decided to continue organizing similar lectures in the future. The commitment to providing students with valuable guidance and support in areas such a time management, note-taking, and study planning remains a priority, ensuring their ongoing academic success. |
| 3.1.4 To enrich the school physical environment with growth mindset messages | overall academic success. • Students were taught to design posters to promote a growth mindset in V.A. lessons. It was hoped that students could have an ownership of the activity. • Posters and a banner were put on the bulletin boards and beside the playground respectively. | Teachers' observations consistently revealed that students' growth mindset had been further developed. They noted that students exhibited an increased willingness to embrace challenges, persevere in the face of obstacles, and demonstrate a belief in their ability to learn and improve. | The strategy will be incorporated into the V.A. curriculum and become an ongoing activity to promote the growth mindset of the Wah Yan community ir the coming school years. |

| 3.2.1 To develop teachers' growth mindset through buddy observation and staff appraisal | • The implementation of buddy observation and staff appraisal aimed to foster the growth mindset among teachers. All participating teachers expressed the professional and personal benefits they gained from lesson observations. | It was observed that teachers were open and receptive to discussing areas of growth and improvement during post-observation discussions and appraisal meetings. This reflective approach encouraged a culture of continuous learning and development among the teachers. | The practices can be continued and teachers can be encouraged to share what they have learnt with other teachers in panel meetings and staff development programmes. |
|--|---|---|--|
| 3.2.2 To promote the growth mindset among parents by organizing parent talks & workshops | • On October 15, 2022, a school talk was conducted. Our in-house psychologist Dr Matthew Chu shared valuable insights and ideas on parenting and the importance of cultivating a growth mindset in children. The talk provided attendees with valuable guidance and strategies to support their children's development and foster a positive mindset for lifelong learning. | The talk on parenting and growth mindset was well-received by parents, indicating their positive response to the valuable information shared. According to the evaluation survey, over 70% of the participating parents learned more about growth mindset and they expressed they would try to apply growth mindset in daily life. | Based on parents' positive feedback, it has been decided to continue organizing similar talks in the future. These talks will cover a range of topics relevant to parents and address various school concerns, ensuring ongoing support and engagement between parents and the school community. |

3.3 Teachers explore ways of enhancing teaching and learning

| 3.3.1 To explore innovative education strategies including redirecting authority, inquiry-based learning, student agency, etc. in the school context via the "Project Zero" study and share the findings with teachers through Staff Development Google Classroom and lesson | • During the second staff development day, the Project Zero team had the opportunity to share their learning experiences and insights from the project with teachers. Valuable materials and resources from the sharing were uploaded to the Google Classroom, allowing teachers to access and reference them at their convenience. This enabled a wider dissemination of knowledge and supported ongoing professional development among the teaching staff. | 69.4% participants agreed that the sharing enabled them to think about their practice in promoting SDL in their classrooms. 53% participants were confident in adopting strategies to promote SDL in their classrooms. Members of the Project Zero Team gained valuable experiences in different events of the program, like the learning community meetings and open houses. They also conducted outstanding presentations that were well-received by other | A representative of the team will join the Project Zero Alliance (a HK school network) in the next academic year to seek opportunities for further enhancement in learning and teaching. |
|--|--|--|--|
| 3.3.2 To explore ways to enhance teaching and learning via BYOD which includes extending the policy to F.2 & organizing a teacher workshop on blended learning and BYOD | A BYOD sharing session was organized for teachers during the first Principal's Meeting. The 2nd staff development day program included discussions on utilizing Microsoft OneNote to create e-books and promoting | 71.4% of participants found the workshop effective in letting him explore new ideas in learning and teaching. Some teachers found the sharing and the practical session useful in the 2nd staff development day, although a few expressed that the workshop content could be more relevant | The policy will be extended to all junior forms in the next academic year, with the focus of academic research skills. |

16. Report on the programs financed by the Capacity Enhancement Grant

The Capacity Enhancement Grant (CEG) is provided by the government for relieving teachers' workload so that teachers will have enhanced capacity to concentrate on critical tasks in the education reform.

In 2022-23 school year, the CEG was used to employ a pastoral assistant and three teacher assistants (responsible for ECA, AV and music activities) to relieve the workload of IVE, Music, AV and ECA teachers. They were employed in 2022-23 in helping religious formation, ECA and music activities.

The Financial Statement for Capacity Enhancement Grant for the Year 2022/23

Income (\$) Grant Received: \$654,502

Expenses(\$) Salaries: \$608,897.01

Balance for the year (\$): \$45,604.99

=======

17. Report on Learning Support Grant

The Financial Statement for Learning Support Grant for the Year 2022/23

Income (\$)

Grant Received : \$646,955.00

Expenses (\$)

Salaries: \$604,895.95

Speech Therapy Service: \$40,500.00

Expenses for Whole-school approach activities for SEN students : \$8,429.99 \$653,825.94

Balance for the year (\$) \$(6,870.94)

| P4 | | 本校教師參與交流的總人次 | 2總人次 | | |
| P5 | | 本校學校管理人員參與交流的總人次 | 1 總人次 | | |

備註:

香港華仁書院和北京十一學校於 2022 年 11 月舉行的一次別開生面的網絡交流活動。這次交流活動是以 VR 元宇宙的形式進行,為兩校的學生帶來了一個全新的學習體驗。

考慮到當時北京因疫情停課,我們決定利用虛擬技術進行交流活動,讓學生們能夠在家中參與。這 是一個具有挑戰性的任務,但通過兩校的共同努力,我們成功地創造了一個虛擬的學習環境。

在這次交流活動中,兩校的校長特意出席並發表了講話,肯定了這次交流活動的重要意義。這次活動不僅提供了學生們互相交流的機會,還展示了虛擬技術在教育中的潛力。

A

香港華仁書院

香港華仁書院的學生們為這次交流活動準備了一個精心設計的元宇宙虛擬校園,讓北京十一學校的師生可以進行虛擬參觀。這個虛擬校園不僅展示了華仁書院的校園風貌和設施,還提供了豐富的互動體驗。兩校的學生們通過這次活動分享了他們在疫情下學習的困難和克服困難的經驗,這在培養他們的創新和適應能力方面起到了重要作用。

儘管這次活動面臨著各種困難,但香港華仁書院和北京十一學校通過同心協力,最終成功地完成了 這次難能可貴的交流活動。我們相信這次活動不僅加深了兩校學生之間的友誼和理解,還為我們開 拓了教育交流的新途徑。

我們要特別感謝兩校的校長、老師和學生的努力和參與。沒有你們的支持和貢獻,這次活動將無法 順利舉行。最後,我們期待著未來更多的交流合作,並希望能夠繼續深化我們兩校的姐妹學校關 係。

23. Report on Use of Citizenship and Social Development Grant 2022-2023

1. Our school has spent the Citizenship and Social Development Grant (the CS Grant) for the following use:
